Screen Time Guidelines

The American Academy of Pediatrics recommends:

- no screen time for children under 2
- less than 2 hours per day for preschoolers.

Screen time includes TV, movies, cell phone usage, hand held devices and computers (excluding video chatting.)

CrossRoads Preschool has no screen time incorporated into our curriculum, so there's no need to include any at-school time in your daily totals

Preschool age children should have at least 120 minutes per day of active play!
